

## Product Features

- 100% Brand new and high quality 5V 1A boost power Module lithium battery charging board
- The use of welding Note B + positive and B-negative can not be reversed
- 18650 battery Charging board size : 22\*17\*11mm
- Input : 5V 1A (charging red light)
- Output : 5V 1.2A (please do not take longer than 1200mA current device)
- Lithium voltage : 3V- 4.3V
- Charging Interface : Micro USB
- Available for various batteries like Polymer ,18650 Lithium ,Cell Phone ,Tablet and MP3 Battery
- The step up charging board can be connected to a lithium battery and connected in multiple sections of lithium batteries, as long as the voltage is 3.7-4.2V in parallel
- Charging instruction : when charging , the red led and blue led light.when full charged , it off
- Output instruction : after the load is switched on, the blue light,will be on.If the blue light is not on,Please plug in the charger and activate it!
- it has protection functions, protect from over-charger / over-discharger/ over-load ( support charger and discharger at the same time )
