

10pcs MICRO USB To DIP Adapter 5pin Female Connector B Type PCB Converter Breadboard USB-01 Switch Board SMT Mother Seat

MICRO USB is an international standard. At present, most smart phone data lines have adopted this interface. The use of this interface is very wide. This module easily transforms it into a conventional DIP2.54mm pin, which greatly facilitates your application.

The MICRO USB female seat is directly inserted into DIP2.54mm and the seat has been welded.
