**Images****Product details****Shipping methods****Payment methods****Return Policy****Reviews (14)****5Pcs Mini DC Adjustable Power Supply Buck Module Step Down Module****Description:**

Module Properties: Non-isolated step-down module (BUCK)
Rectification: Synchronous rectification
Input voltage: DC 4.75V-23V
Output voltage: DC 1.0V-17V (Adjustable, Output < Input)
Output current: Rated current 1.8A (3A MAX, can not be prolonged)
Output ripple: 30mV (no-load)
Dimension: 17 x 11 x 4mm(L x W x H) / 0.67" x 0.43" x 0.16" approx
Weight: 1g (per.)

Package included:

5 x Mini DC-DC step-down adjustable module

Got only 4 pcs instead of 5
By: **vladmircape** 2015-10-11 18:39:36
Got only 4pcs not 5pcs :(very dissappointed. Why it's happend don't understand
Banggood Reply:
Hi ,
Sorry to hear that.
Would you please contact our customer service cservice@banggood.com?
Please send us your order number and a video or some pictures to show your problem.

Very nice DC Buck using MPS23...
By: **TiemeKuyper** 2015-09-14 05:11:05
Makes use of the MP2307 switcher from MPS, a synchronous buck converter. Which makes it about 90% efficient. Running at 12V_{in}, 5V 1A out it warms up till about 40°C, very reasonable. At 20V in it heats up quite more severe, so it is intended for 12V input. Potmeter to adust from 0.9V upwards. A potmeter might lead to some aging effects, but for the price it is perfect.

So small and light, great for my ...
By: **apiset** 2015-09-03 22:55:35
I'm surprised by the size of it! I use it to feed the video tx and camera on my FPV250 quad. Add literally no weight!
